

Belonging to R.F. Celada is itself a guarantee of a complete and a professional service.

Mautus offers revisioned machines with a warranty, according to the kind of product and the agreement signed. Our technical staff deals with the machine start up and, if necessary, Mautus offers training courses on the use and programming of the machines bought.

Mautus, making use of R.F. Celada's technical staff, which is composed of over highly skilled 70 engineers, is able to solve any problem in a short time, 24-48 hours at the latest.

Should the equipment be bought by a producer who is not one of our partners', Mautus is able to offer you the service through external skilled staff.

Moreover, a CALL CENTER (02.25158.313), recording all service calls, is active and will contact you and, if possible, will try to solve the trouble on the phone.

As for more complex problems, on the contrary, the starting procedure of service will be started in a short time.

For the Group, which Mautus belongs to, quality has always been the target to be taken into consideration.

ALL MAUTUS MACHINES ARE TESTED, STARTED UP ACCORDING TO SAFETY STANDARDS!

YOU WILL RECEIVE ALL THE SAME SUPPORT AND SERVICE AS FOR A NEW MACHINE.
